FRANCISCO
MÉNDEZ VILAS

ongoing
~ 2010

Founder & CEO at Didgeridoo IDE
github.com/fmvilas/didgeridoo

Full stack developer. Didgeridoo is a browser based IDE that allows programmers to code and collaborate in realtime. It's a personal project, not a company (yet).

mar 2013
~ feb 2013

Frontend Developer at Sturffy
www.sturffy.com

I did some fixes (not design) to the interface, developed a jQuery plugin to select nested categories from a list and created a cross browser of the ranking star.

jan 2013
~ nov 2012

Web developer at Morcilla Vegetal
www.morcillavegetal.com

Full stack web developer and designer.

oct 2012
~ aug 2010

Web Applications Developer at FTZ Collective
www.ftzcollective.com

CTO and Team Leader. Full stack web developer and designer.

sept 2008
~ jun 2009

Programming Teacher at Colabora Consultores
www.grupocolabora.es

Programming teacher of C/C++, Visual Basic, Web Development lectures and PL/SQL for INDRA company workpeople.

a little something about me

I'm a spanish passionate developer and designer who likes to have fun at work while being productive. I was born on 1983 in Bern (Switzerland) but I grew up in Spain. I started soon (around 11 years old) to have interest about programming and new technologies, and always wanted to be an engineer to contribute to make a better world.

Today I'm trying to make this dream come to reality. Help me help you.

my studying history

University of Extremadura
Bachelor's degree in Telematics Engineering
2007-2013

Castelar High School
High-Level Technical Degree in Computer Applications Development
2004-2007

Reino Aftasí High School
Intermediate Degree in Computer Graphics Arts
2002-2004

languages

Spanish
Native Level

English
High Level - Full Professional Proficiency
I gained experience by talking during some trips to London, 1 month in USA and 1 year in Portugal with people from all over the world (Erasmus Programme). I also like to write in english in my blog, where you can see that my english is fluent.

Portuguese
Medium-High Level
I gained experience during 1 year in Portugal (Erasmus Programme), where I had to attend to classes, do the homework and communicate with portuguese people.
